Saturday evening J. W. Bolen de-New York, April 22,-Since the last installment of the New York Herald's country-wide poll was published, Mr. Roosevelt has made marked gains in his fight to obtain the republican presidential nomination. While there seems to be not the slightest doubt that President Taft will have a majority of the 1-078 votes in the convention, Mr 🕒 Roosevelt is gradually creeping up on him, and the Taft managers make no secret of the fact that they are somewhat disconcerted.

#### OKLAHOMA'S BIRTHDAY.

Today marks the twenty-third anniversary of the first run of settlers to Oklahoma. Oklahoma was settled in a rush and has been rushing ever since. The spirit of those sturdy pioneers has proved infectious and no other state in the union ever made the strides that Oklahoma has. The people who had the nerve to face the obstacles they met, because they were far-sighted enough to realize the future that awaited those with the courage to fight it out, were little less than prophetic in their foresight and those of us who came later would be unworthy of citizenship if we did not follow in their footsteps along the trail they blazed to prog-

Some of the opponents of the commission plan of city government talk as if they think no one but a common grafter will stand any chance of election as commissioner, and that the city will be bankrupted immediately by the grafting commissioners. There is certainly no foundation for such assumption. The advocates of the improved system have nothing but the interests of the city at heart and believe the city will advance more rapidly and get more for the money expended than under the present system. It has been demonstrated by other towns that the plan is a success, and we see no reason why Ada should not prosper under it as never before. It is entirely unwarranted to assume that every man who favors commission government is after an office, has some design on the city treasury or else is a cat's paw for some shrewd manipulator. The News has never ascribed any unworthy motive to the opposition of any man opposing the charter, giving all on that side credit for thinks the other side is entitled to some consideration as well.
